

UNIFIED COMMUNICATIONS SOLUTION FOR MASS TRANSIT

Daily across the US and around the globe, airports, train stations, and mass transportation hubs rely on effective, safe, and secure communications to deliver passengers safely from point to point. As a Certified Transportation Integrator, Verrex's strategic partnership with AtlasIED allows us to offer an unparalleled Unified Communications Solution for Mass Transportation. Our solution, built on their tested and proven GlobalCOM® platform, is uniquely designed to enhance your entire mass transportation facility's efficiency, safety, and security. We will seamlessly integrate this solution with your existing or future network infrastructure, providing a single, integrated platform for all your mission-critical communications needs.

Unified communications streamlines your communication types such as voice, video, and messaging, into a single interface. It provides a consistent unified user interface and experience across multiple campuses, devices, and media types, alleviating the need to communicate between mediums and guaranteeing an effective communication solution.

KEY BENEFITS

- Increase passenger throughput while improving customer experience
- Improved daily communications
- Meet new regulations for intelligibility standards
- Make your mass transportation facility best-in-class

GLOBALCOM® FEATURES

- Integrate with Existing Systems
- Comply with Life Safety Requirements
- Support Multiple Languages
- Utilize Audio and Video Messaging
- Improve Passenger Experience
- Enhance System Reliability and Reporting

WINNING COMBINATION

We fully understand the complexities and importance of seamlessly integrating with your existing infrastructure. With AtlasIED's industry-leading solution and our team's over 75 years of experience in AV design and integration, you can be confident that your passengers' travel experience will be nothing short of remarkable.
